## FOREWORD

The forestry profession is dynamic and ever changing. In order to better understand the problems and changes within this profession, much education is needed. Education is a continual process but all continuums must begin at some point. For many of us, this point of start for our educational continuum was Iowa State University. In recent years many educational and institutional modifications have been initiated here at Iowa State. Many of these modifications have occurred within our own forestry department. The staff of the 1967 *Ames Forester* wishes to take you through a few of these departmental modifications.
